End-of-Life Notification
BlueCat Networks' Proteus Software Release 3.1

BlueCat Networks is announcing that Proteus software version 3.1 will reach the end of its life on May 31st, 2013. We recommend customers upgrade to Proteus v3.7.1 or newer. Customers with valid support contracts may choose to use software after its end-of-life date and will receive support, but BlueCat Networks will not be providing patches or updates to the software after its end-of-life date.
