

Adonis™
DNS/DHCP Appliance

Online Administrator Training & Certification

BlueCat Networks' Online Adonis Administrator Training is designed to provide attendees with the knowledge required to successfully configure, deploy and manage their Adonis DNS/DHCP appliances.

Whether you are new to Adonis or simply need a refresher, BlueCat's WebEx-based, instructor-led training

series gives your organization a simple and cost-effective way to certify or re-certify your IT administration professionals. Each session ensures that your staff has the most up-to-date training for the Adonis products they manage. Now your staff can be completely trained in as little as a week and all at a very reasonable cost to you.

Topics covered in each session include:

Session 1: (Duration: approximately 4hrs)

This session examines DNS and DHCP from an Adonis perspective and familiarizes the user with most areas of the Adonis interface, including powerful importing functionality of Adonis.

- DNS/DHCP Fundamentals
- Adonis Physical Setup
- Introduction to the Adonis Management Console
- Importing DNS & DHCP Files

Session 2: (Duration: approximately 4hrs)

The ease of DNS configuration using Adonis is brought forward along with its seamless integration into Active Directory environments.

- Configuring DNS
- BIND Views
- Active Directory Integration

Session 3: (Duration: approximately 4hrs)

The complexities of managing DHCP and Dynamic DNS are clarified with Adonis.

- Configuring DHCP
- DHCP Failover
- Dynamic DNS
- Adonis Security Features

Who should take these courses:

- New Adonis administrators and existing users
- Untrained Adonis administrators
- Windows Active Directory administrators in Adonis integrated environments
- Adonis users who require a refresher in all the newest features of Adonis.

Session 4: (Duration: approximately 4hrs)

Managing Adonis users, security and redundancy are the focus of this final module.

- Crossover High Availability (XHA)
- MAC Authentication
- User Management
- The Adonis Administration Console

Session 5: Certification Exam (1 ½ hours)

Receive certification from BlueCat Networks and prove to yourself and to your organization that you qualify as a certified Adonis Administrator.

- Candidates must have attended all four sessions to be eligible to write the certification exam.

Registration and scheduling can all be conveniently done online. Cost per session is \$295 and includes training and lab materials. Access to a physical appliance is not mandatory.

Online Training can also be customized to meet your specific corporate requirements. Contact BlueCat to enquire about developing your own dedicated program and schedule.
