

PROTEUS TRAINING GUIDE

Table of Contents

Module 1: Introduction to Proteus

- What is Proteus?
- Proteus 5000 and 2150
- Proteus Object Tree
- Data Modeling
- Configurations
- Communication
- Servers and Deployment
- Deployment Roles

Module 2: Proteus Interface

- My IPAM
- Favorites
- Tasks
- Tabs
- Object Menu
- New Menu
- Action Menu
- Breadcrumbs
- Quick Search
- Advanced Search
- Table View
- Tree View
- Grouping in Tree View
- Customizing Tables
- Exporting Table Data
- Data Restore
- Getting Help

Module 3: IPv4 Modeling

- IP Blocks
- Creating an IPv4 Block
- IPv4 Networks
- Network IDs and Broadcast Addresses
- Gateway Addresses
- Partitioning an IPv4 Block
- Find First Available IPv4 Network
- Find First Unassigned IPv4 Address
- IPv4 Addresses
- Usage Bar
- Other IPv4 Tools

Module 4: Network Templates

- Creating Network Templates
- Linking a Network Template
- Updating a Template
- Unlinking and Deleting Templates

Module 5: Configuring DNS

- DNS Views
- DNS Zones
- Resource Records
- Host Records
- Creating Host Records from a Network
- DNS Settings
- Alias Records
- Mail Exchanger Records
- External Hosts
- Additional Resource Records
- Generic Resource Records
- Resource Record Columns
- Adding a DNS Server
- External Servers
- DNS Deployment Roles
- Master and Slave Deployment Roles
- Deployment Roles-Reverse Zones
- Hidden Master/Stealth Slave
- Recursion
- Recursion Deployment Role
- Forwarding
- Forwarding Zones
- Disabling Forwarding for Child Zones
- Stub Zones
- Delegation
- Delegating to an External Server
- DNS Deployment Options
- Start of Authority Record
- How Serial Numbers are Calculated
- DNS Validation

Module 6: Additional DNS

- Views
- Match Clients Option
- IP Restrictions
- Dynamic DNS (DDNS)
- DDNS and DHCP
- DDNS Deployment Options
- Deleting and Editing Dynamic Records
- Active Directory and DNS
- Configuring AD Zones in Proteus
- AD Forward Lookup Zone
- Configuring the Domain Controller
- AD Resource Record Registration
- Naming Policy Management
- Naming Policy Values
- Naming Restrictions
- Creating a Naming Policy
- Linking a Naming Policy
- DNS Raw Options
- Internal Root Zones
- Transaction Signatures (TSIG)
- ENUM
- Configuring NAPTR Records
- Zone Templates
- Updating a Zone Template
- Zone Import Tool
- DNS Bulk Import Tool

Module 7: DNSSEC

- Island of Security
- Chain of Trust
- Trust Anchor
- Resource Records
- Signed Zones
- DNSKEY
- Resource Record Signature (RRSIG)
- Next Secure (NSEC/NSEC3)
- Delegation Signer (DS)
- Key Management
- DNSSEC Signing Policy
- DNSSEC Signing Policy—General
- DNSSEC Signing Policy—Keys
- Applying a Signing Policy
- Signing a Reverse Zone

- Editing and Deleting a Signing Policy
- Objects Linked to a Signing Policy
- Properties of a DNSSEC Key
- DNSSEC Key Auto Generate Service
- Generating Keys Manually
- Emergency Rollover
- Configuring Secure Delegation
- Re-signing a Zone
- Key Management
- Configuring Double Signing
- DNSSEC-Aware Validating Servers
- Configuring a Validating Server
- Adding Trust Anchors

Module 8: Configuring DHCP

- DHCP Ranges
- DHCP Leases History
- Viewing Leases
- Viewing Lease Transactions
- DHCP Reservations
- DHCP Deployment Options
- DHCP Servers
- DHCP Validation
- DHCP Deployment Roles
- DHCP Vendor Profiles
- DHCP Custom Options
- DHCPv4 Raw Options
- DHCP Match Classes
- Configuring Match Classes
- Shared Networks
- DHCP Alerts

Module 9: Advanced DHCP

- DHCP Failover
- Failover States
- Failover Deployment Roles
- Failover Deployment Options
- Tracking MAC Addresses
- MAC Pools
- Adding MAC Addresses to a MAC Pool
- MAC Pool Deployment Options
- MAC Pool Deployment Roles
- MAC Authentication
- MAC Authentication Policy
- Assigning a MAC Authentication Policy
- Configuring DHCP and DNS
- TFTP

Module 10: Managing Adonis Servers

- Servers
- Adding a Server
- Multiple Version Support
- Server Properties
- Published Interface
- Deployment Roles
- Deployment Permissions
- Deploying Data
- Deployment Status
- Scheduled Deployments
- Viewing Deployment Events
- Monitoring Adonis Servers
- Enabling and Configuring Monitoring
- Displaying Monitoring Status
- Monitoring Notification
- Metrics
- Viewing Adonis Server Logs
- Server Control
- Disabling a Server
- Replacing a Server
- Updating an Adonis Server
- Managing Adonis Patches
- Applying Adonis Patches

Module 11: Managing Proteus

- System Information
- Global Settings
- User Management
- Editing a User Account
- Resetting User Password
- User Groups
- LDAP Groups
- Authenticators
- User Sessions
- Data Checker
- Data Check Issues
- Data Checker Details
- Event List
- Viewing Event Details
- Event Notification
- Subscribing to Event Levels
- Transaction History
- Transaction Details
- Object Types
- User-Defined Fields
- History Compression
- History Archive
- Database Cleaner
- Migration
- Software Update
- System Re-imaging

- Version History
- Proteus Monitoring and Metrics
- Configuring Proteus Monitoring
- Proteus Metrics
- Proteus Logs
- Proteus IPMI

Module 12: Reporting

- Reports
- Creating a Report
- Report Format
- Types of Reports

Module 13: Groups

- Object Tags
- Object Tag Structure
- Creating Tag Groups
- Creating Object Tags
- Tagging Objects
- Navigating Tag Structures
- Tagged Objects Report
- Devices
- Devices and the IP Space

Module 14: Proteus Security Model

- Security
- Access Rights
- Overriding Access Rights
- Assigning Access Rights
- Security Privileges
- History Privileges
- Firewall Settings

Module 15: IPv6

- IPv6 Address Space
- IPv6 Local Address Space
- Global ID of the Local Address Space
- Global Unicast Address Space
- Creating Child Blocks
- Creating Networks
- Creating IPv6 Addresses
- Assigning IPv6 Addresses
- DHCPv6

Module 16: Workflow

- Configuring Workflow

- Making a Workflow Request
- Viewing Workflow Requests
- Managing Workflow Requests

Module 17: IP Reconciliation

- Creating an IP Reconciliation Policy
- Performing a Discovery
- Viewing the Results of a Discovery
- Reconciling Addresses

Module 18: Crossover High Availability

- High Availability in DNS
- High Availability in DHCP
- XHA IP Addresses
- Configuring XHA
- XHA and NAT Support
- Viewing XHA Properties
- Performing an XHA Failover
- Updating Servers in XHA
- Repairing XHA
- Breaking XHA
- Post Break State

Module 19: Proteus Administration Console

- Administration Console Help
- Main Mode
- Configuration Mode
- Appliance Settings
- Network Settings
- Time Settings
- Network Time Protocol (NTP)
- Mail Service
- SNMP

- SNMP Configuration Mode

Module 20: Adonis Administration Console

- Main Mode
- Configuration Mode
- Administration Console Help
- Server Settings
- Network Settings
- Service Settings
- SNMP
- Time Settings
- Network Time Protocol (NTP)
- Anycast

Module 21: Database Maintenance and Disaster Recovery

- Database Set up
- Backup Service
- Creating a Backup Schedule
- Viewing Backup Information
- Managing Backups
- Database Replication
- Configuring Disaster Recovery
- Configuring the Primary Server
- Configuring the Secondary Server
- Displaying Replication Information
- Switchover and Failover
- Configuring Switchover
- Failover
- Installing the PMA
- Repairing the Proteus Management Agent
- Removing the Proteus Management Agent
- Managing a Windows Server
- Proteus and Microsoft Tools
- Migrating Windows settings to Proteus
- Adding a Windows Server to Proteus
- Managing Windows DNS
- DNS Zones
- Managing Resource Records
- DNS Options
- Forwarding
- Recursion
- Dynamic Updates
- Zone Transfers
- Notify
- DNS Deployment Roles
- Managing Windows DHCP
- DHCP Scopes and Address Pools
- DHCP Reservations
- Superscopes
- Vendor Classes
- Conflict Detection
- DHCP Lease Times
- DHCP DDNS Settings
- DHCP Options
- Scope Splitting
- PMA Read-Only Mode
- Importing DNS Data from Windows
- Importing DHCP Data from Windows
- DHCP Notifications

Module 22: Proteus Management Agent for Windows

- Installation Requirements

North American
Corporate/R&D
Headquarters:
502-4101 Yonge Street
Toronto, ON M2P 1N6
Phone: +1.416.646.8400
Fax: +1.416.225.4728
Toll Free: +1.866.895.6931

US Offices:
Reston, VA
1818 Library Street
Suite 500
Reston, VA
20190
Phone: +1.703.956.3551

EMEA Head Office:
United Kingdom
BlueCat Networks Europe
Merlin House
Brunel Road
Theale Berkshire RG7 4AB
Phone: +44.118.902.6680
Fax: +44.118.902.6401

Atlanta, GA
12600 Deerfield Parkway
Suite 100
Alpharetta, GA
30004
Phone: +1.678.566.3810

Germany
BlueCat Networks
(Zentraleuropa)
Altrottstrasse 31
D-69190 Walldorf, Germany
Telephone: +49.6227.38489.10
Fax: +49.6227.38489.18

Redwood City, CA
303 Twin Dolphin Drive
6th Floor
Redwood City, CA
94065
Phone: +1.650.632.4570
